Subject: RE: CA SWRCB and US EPA R9 Water Sustainability calls

Here is what we'll have for updates:

- Data collection process for adaptation (vulnerability assessment and resilience measures) for both drinking water and wastewater systems
- Update on organics diversion to WWTP digesters project with Carollo
- Status update on SB 555 implementation
- AB 1668 & SB 606 implementation overview
- Next week's meeting (12/18) re. whether or not we should apply to USEPA research dollars (RARE, RESES, RSIP) to help answer the question: What impact does conservation have on WWTPs?
- California Adaptation Planning Guide – Participate in survey by December 19:
The State is currently in the process of updating the California Adaptation Planning Guide, a set of documents designed to help local jurisdictions address hazards exacerbated by climate change. Part of the update process is gaining public input on what is needed to develop and incorporate climate strategies specific to each of the State's regions: <http://www.caloes.ca.gov/cal-oes-divisions/hazard-mitigation/hazard-mitigation-planning/california-climate-adaptation>
- Grant solicitation for Forest Health Watershed Coordinator - Applications due Feb 15, 2019:
The grant program is for funding watershed coordinators who will "facilitate watershed-scale collaborations, promote integrated watershed management efforts, and support local implementation activities to restore resilience to forestlands".

Subject: RE: CA SWRCB and US EPA R9 Water Sustainability calls

Hey folks – what is on the agenda for today's 2 pm call?

Would be glad to hear about

- wildfires recovery and any related water quality work the Waterboards are doing that you know of.
- Also anything new about water boards and climate change policies?
- Anything on funding for climate work or disaster recovery / resilience work, for example are there funds beyond Nonpoint source program that state can use to build resilience to wildfire? Does the state need to learn more about FEMA funding and other funds.? (perhaps we can help facilitate getting FEMA to present to Water Boards.

Suzanne Marr

US EPA, Region 9

Watersheds Office (WTR-2-2)

75 Hawthorne Street, San Francisco, CA 94105
